DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: the brief description of the drawings refer to Figures 1A, 2A, 3A and 4A, which do not correspond to the drawings, which are actually labeled Fig. 1, 2, 3 and 4.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 depends from claim 10, which has been canceled.

Allowable Subject Matter

Claims 1-8, 12-22 are allowed.

Art Unit: 1641

Claim 11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: As to independent claim 1, the prior art does not teach or suggest a fractionation device including flow channels assembled in a cartridge and a flow pump provided with a rotating rotor and a roller, and a portion of the outer wall of the cartridge is a squeezing member for squeezing a part of the flow channels.

As to independent claims 13 and 14, the prior art does not teach or suggest a fractionation device wherein a part of the outer wall of the cartridge is a squeezing member, and a tube forming a part of the circuit of the fractionation device is disposed on a part of the outer wall of the squeezing member.

Applicant's arguments filed December 7, 2009 are found to be persuasive. It is noted that the prior art does not teach the above limitations nor suggest purposes, benefits or other motivations for providing such modifications of structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
